

MACHINE SHOP GOALS 2017

a gradual climb into digital enterprise

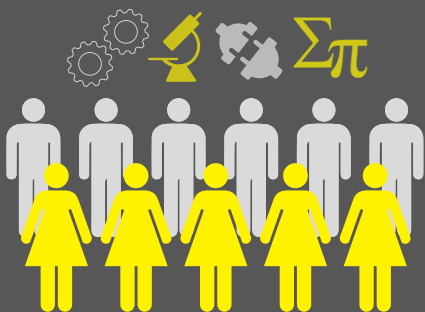

1

Evaluate your current value stream & create a gameplan to integrate digital elements providing efficiency, accuracy & reliability

2

Stay up-to-date with the newest metal cutting technology; attend a training at a **Sandvik Coromant Center** near you.

3

Develop a plan for aligning your talent and resources with manufacturing's trajectory into Industry 4.0

4

Research apps and tools that will make your business more streamlined- you can start by downloading **ifind**

5

Accurately analyze the state of your shop; develop a strategy to accurately collect OEE data (hint: sensors will be your first step)
