2026 TechDays

Precision that Rocks
Performance that Rolls

August 26 & 27, 2026

Venue: Coromant Center. Av. Cerrada la Estacada 550-
C Parque Industrial Querétaro C.P. 76220

Dear customer,

Discover the future of manufacturing at TechDays, Precision that Rocks, Performance that Rolls, at the Coromant Center, Querétaro, where innovation, digital connectivity, and hands-on experience converge in a concept where technology also merges with the energy of rock. Explore how advanced technologies are transforming every stage of the manufacturing lifecycle through specialized sessions, live demonstrations, and direct interaction with Sandvik Coromant experts and partners.

Why attend?

This is not a traditional event. It's an experience designed so that you can:

- Connect with the entire manufacturing ecosystem: Our leading partners will be participating, including OEMs, machine tool manufacturers, automation providers, digital solutions companies, and more.
- Roundtable discussion with industry thought leaders to discuss the main challenges and opportunities for manufacturing in Mexico, including the impact of nearshoring and the future of the sector.
- Real machine demonstrations focused on: mass production, batch production, serial production, and advanced components.
- Speak directly with experts: Access pre-scheduled sessions with specialists in a comfortable and confidential environment to address specific challenges in your operation.
- Conferences and technical sessions presented by our partners on: productivity, Industry 4.0, automation, industrial competitiveness, digitalization, specialized solutions for manufacturing critical components in humanoid robots, machining best practices, sustainability, and much more.
- Each partner will have their own booth, showcasing their latest technologies, innovations, and applications.

An experience that goes beyond: TechDays is the ideal space to network, generate new opportunities, and understand how to evolve your production within the current industry context.

Limited spaces available – secure your spot by registering today.

Wednesday, August 26

2:00 PM - 7:00 PM

Day 1 — Technical Focus

Audience: Engineers, programmers, process specialists, manufacturing managers, and technical professionals.

The first day will be dedicated to an in-depth exploration of technologies, digital solutions, and advanced manufacturing practices.

Participants will engage in:

- **Connect with leaders** in the manufacturing ecosystem
- **Expert-led sessions** on digitalization, automation, process optimization, and machining best practices.
- **Explore our partners' booths** to discover innovative solutions and opportunities for direct collaboration.
- **Live demonstrations** focused on mass production, serial production, batch production, and advanced components.
- **One-on-one sessions with Sandvik Coromant specialists**, available for pre-booking, to review customized manufacturing cases and specific technical needs.
- Food and beverage area.
- **Closing Networking & Rock Set** designed for interaction among experts.

Jueves, 27 de agosto

10:00 AM - 3:00 PM

Day 2 — Executive Focus

Audience: CEOs, CEOs, general managers, and business decision-makers.

The second day is designed for senior leaders seeking strategic perspectives on competitiveness, investment, and the future of manufacturing. The program will include:

- **Executive roundtable:** a high-level discussion with industry leaders on the future of manufacturing and the impact of nearshoring.
- **Expert-led sessions** on digitalization, automation, process optimization, and machining best practices.
- **Explore our partners' booths** to discover innovative solutions and opportunities for direct collaboration.
- **Live demonstrations** focused on mass production, serial production, batch production, and advanced components.
- **One-on-one sessions** with Sandvik Coromant specialists, available by pre-booking to review specific technical needs.
- **A networking, rock music, and food experience** designed for executive interaction.

An event in collaboration with:
